

LIFEJACKETS - MED APPROVED

We can provide a full range of MED and CE approved lifejackets to meet any requirement, whether operating a vessel for commercial purposes or looking after a

workforce working near water. **N.B. When choosing a lifejacket it is important to consider the buoyancy rating.**

CREWSAVER PREMIER 2010 INHERENTLY BUOYANT

The Crewsaver Premier 2010 gives 190N inherent buoyancy and sees a new era in lifejacket design and performance. The Adult lifejacket has a patented design Neck System that can adjust to the wearer's neck size so it can be worn by anyone from 43Kg up to 140Kg+

still maintaining good face angles and mouth clearance above the water. MED approved for use on cruise ships, ferries, merchant vessels, charter vessels, commercial angling and fishing boats.

KEY BENEFITS:

Self rights in an average 1.7 seconds

Mouth freeboard greater than 145mm

Improved face plan and body angles

Patented Reverse Angle Head Support holds head at optimum position even if the wearer becomes unconscious

Available in International Orange

Hi-Vis yellow available for crew on cruise or passenger vessels

Child size available (15Kg – 43Kg 108N inherent buoyancy)

Infant size available (up to 15Kg 68N inherent buoyancy)

Approved to SOLAS, as amended, Regulation III/4 and 34

Conforms to the LSA Code, Regulations I/1.2 and II/2.2

Conforms to IMO Resolution MSC.81(70)
Part 1, MSC 200(80), MSC 207(81)

CRIB LIFE PRESERVER

The Crib Life Preserver was developed after close consultation with the major cruise operators. Designed for babies under 24 months, the crib was the first product of this type to be launched and has since become a regular product on board cruise ships. Available with or without light.

Please note this product would be carried in addition to the statutory requirements for lifejackets on vessels.
