PREMIER COMPACT

Since the Crewsaver Premier was introduced in July 2010, the lifejacket has led the way in passenger and crew lifejacket safety.

Driven by regulation changes for lifejacket accessibility on cruise ships, and customer demand for reduced bulk and improved storage options, Crewsaver has designed the Premier Compact - a 42% smaller alternative to the original Premier 2010.

The Premier Compact provides crucial, continued safety and performance of the previous model with 143N buoyancy, and delivers improved storage options due to its significantly reduced volume and easy-stack profile.

A unique design of the neck opening allows for increased wearer comfort, while durability is assured by the use of tried and tested quality components.

KEY FEATURES

- Efficient use of storage space at only 17.4L with 143N buoyancy performance
- Easy pull-out pillow for intuitive donning
- Easy stack-and-stow, no folding or manipulation required
- Improved comfort and fit around the neck with re-engineered neck aperture in softer foam
- Buddy line and whistle stored in recessed pocket
- High visibility fabric, foam and webbings are a proven success in the field
- Universal light which can be either recess (circular or rectangular) or surfaced mounted

OPTIONAL ACCESSORIES

- Spray hood
- Crotch straps

Reflective tape (total of eight pieces)

Whistle on the edge of the front foam on a reverse chamfer to reduce bulk when packed

Small chamfer to prevent webbing slipping

Clear ID Windows

Additional buckle for enhanced security

Buddy line in self close pocket, attached to the edge of the front foam on a reverse chamfer to reduce the bulk when packed

Flush recess light housing with only the light dome exposed. Dome fits into chin recess when stacked

Chamfered edge to reduce snagging on Evacuation Systems

DIMENSIONS

(BASED ON ADULT SIZE)

Release for buckle

STORED JACKETS

Jackets can be stored closer together to further reduce the space needed

Buckle recess for storing jackets

STOWAGE VOLUME

10 x Adult Lifejackets

Premier Compact = *0.158m³ per jacket

Original Premier 2010 = *0.300m³ per jacket

* PACKAGING VOLUMES DEPENDENT ON LIGHT TYPE

Greater than 43kgs

	Weight kg	Buoyancy N	Body Weight kg	Product Code
Adult	0.7	150N	>43	TBC

The Crewsaver industrial and commercial range has been developed over many years using only the most advanced fabrics and manufacturing processes. Continuous stringent research and development within the industry has seen Crewsaver products in use worldwide in a diverse range of commercial sectors and institutions. Designed to perform in the most arduous environments, Crewsaver has developed a range that suits all your safety needs.
